

# SPORT & TECHNOLOGY

AUGUST 2023 | 01

Dear readers,

I am delighted to present to you today our new newsletter! As the head of the Department of Sports Equipment and Materials, I am deeply committed to spreading knowledge and new insights in the field of sports and technology. Through this newsletter, we aim to keep you informed about the latest developments and trends in this exciting research area.

Our philosophy is driven by a dedication to excellent research and innovation at the highest level. We strive to bridge the gap between scientific discoveries and practical applications, addressing both global challenges and local needs. We firmly believe that the integration of sports and technology can contribute to enhancing athletes' performance and promoting well-being worldwide.

In our newsletter, we will showcase the three most outstanding papers in the field of sports and technology. We will focus on research findings that have a direct impact on practice and can assist both athletes and recreational sports enthusiasts in improving their performance and achieving their goals.

We hope that you will find our newsletter inspiring and look forward to having you accompany us on this journey through the world of sports and technology!

Best regards,

*Prof. Dr.-Ing. Senner*
