

SciWay – Shaping our future together

The trainee program at the Chair of Metal Forming and Casting

Who are we?

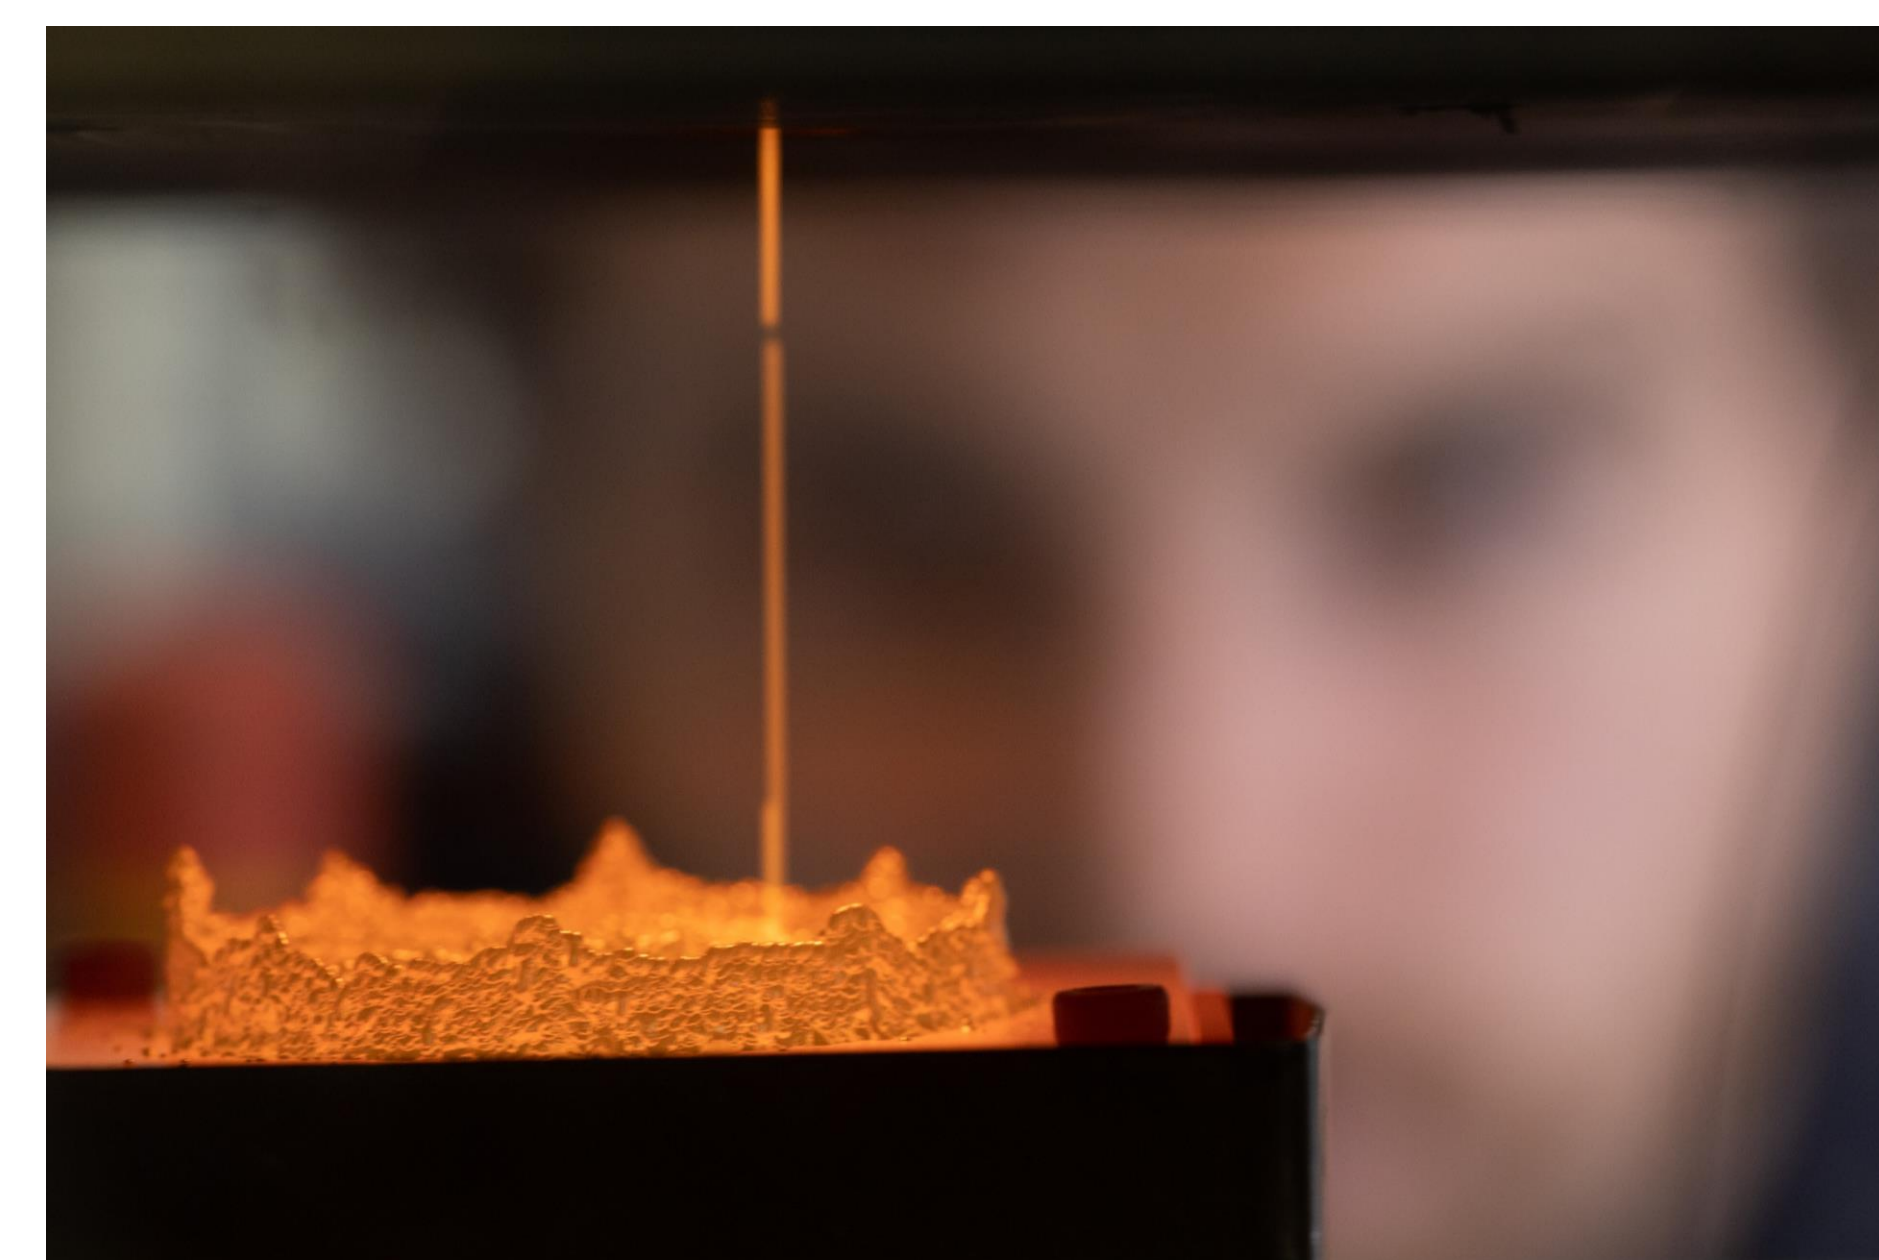

Welcome to a world where hierarchies are flat and ideas can soar. In our dynamic environment at the Chair of Metal Forming and Casting, you will be part of a young and highly motivated team that regularly shares ideas, brainstorming and grows together.

What do we offer?

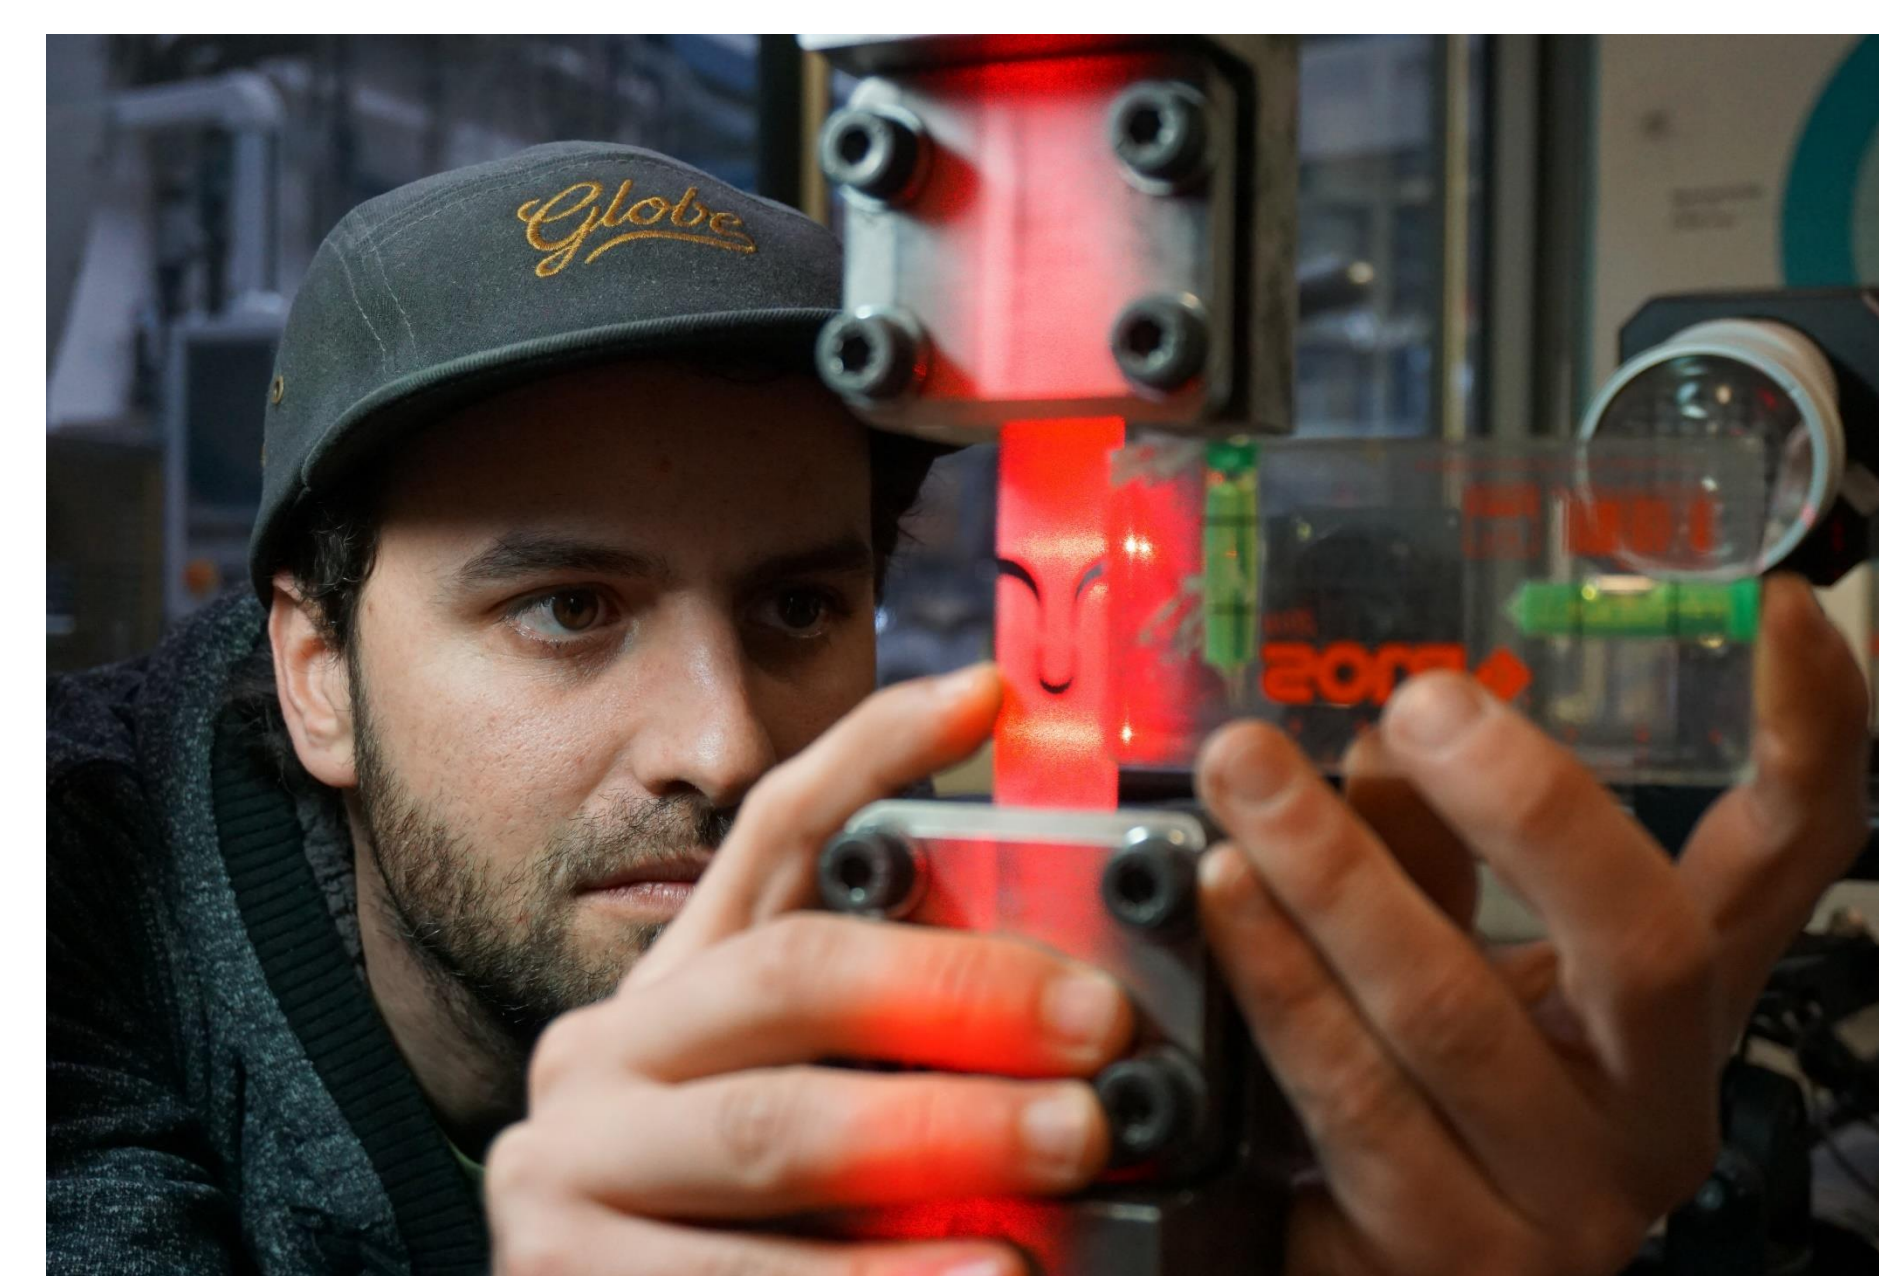

We support your professional development by giving you the possibility to **attend fairs**, where you can discover the latest innovations and trends in your field. **Exciting research projects** at the chair or within the industry provide the opportunity to apply your theoretical knowledge in practical projects and gain valuable experience. In addition to our professional offerings, we organize **team-building events**, that are not only fun, but also provide the possibility for **networking and new connections**.
